

TRAC match – January 13, 2026 – Anthony Turchetta, match director

With temps ranging from high 40°s to low 60°s and humidity ranging from 40% down to 27%, and the wind swirling, but primarily NE at 8 mph and finally settling to around zero, AND with Tony as match director, we did not know what to expect. He clumped same sized KZ sizes on each lane, some far, some close, but all were challenging on the near target, and then the next one, farther out, was VERY challenging. It was a good match.

There were 14 of us today; 7 pairs with assigned lanes for 6 pairs, and then the floater pair. This worked great considering that you would shoot your 6 lanes, then have a breather between lane 6 and lane 1. He did this before and it worked quite well. Here are the scores....

This coming Saturday is the founders cup match at BASF. The reminder went out via email, and hope to see everyone there. Also, I have most of the membership cards laminated, with just a few that did not renew from last year. Those attending today's match got theirs and am hopeful to distribute the remainder this Saturday. That is all to report for now.

Respectfully submitted,
