

## TRAC Match – May 27, 2025 – Wayne Mauler, Match Director

We have made it to end of the month, and the temperature is rising here in Arizona. We started the day out with temps about 78° with no wind at all. Today being the fourth Tuesday of the month, it was pistol piston Tuesday which most of the shooters remembered. We had the 6 lanes with two targets each but only set out from 10 to 35 yards. We had 8 shooters ready to go early to beat the heat. I must say Anthony was not there, he was home enjoying his birthday. He missed a great time here with us thinking about him. We finished the second half with a little breeze, but it was nice.

So, with the 8 shooters we had, we only set up 6 lanes this week with two targets each for the usual 48 shots. Listed below are the results for this week:

### **Hunter Piston**

44/48 – Stan Mountford / TX200

41/48 – Bill Cole / AA Pro Sport

39/48 – Jesse Avery / AA Pro Sport

33/48 – Loren Braud / TX200

32/48 – Joe Pruzinsky / HW97

### **Pistol PCP**

25/48 – Wayne Mauler / FX Rancho / Hunter class

### **Hunter PCP**

48/48 – Barry Diehl / Daystate Revere / Hunter class

34/48 – Van Tucker / Daystate Air Ranger / Hunter class Sit Near /23 OH Far /11

As usual, everyone did a great job of getting there to set up and tear down in record time. We were finished with everything and moving at 10:40! It was a group effort. We are going to try to start earlier, if possible, to beat the summer heat. We will try to start about 8:00 if we are ready.

Respectfully submitted,

*Wayne Mauler*
