

TRAC match – May 20, 2025 – Anthony Turchetta, match director

Well, we have made it through another week with Anthony's course layout. That said, the weather conditions were fair with light wind from the north about 6 to 8 miles per hour and a starting temp of 78°. It was clear for the match and was harder on the eyes being so bright. The second half of the match was a change with the wind still gusting but almost gone by the end. Clean up was quick and we were done by 10:30 with the temp only getting to 90° as we were all leaving. It was good to see Loren back from his travels from overseas. We still were missing some of the regulars that are still on their vacations but will be back soon.

We did talk about starting a half hour earlier due to the heat here in Phoenix. So, in June we are hoping to start at 8:00am to beat the heat.

So, with the 7 shooters we had, we only set up 6 lanes this week with two targets each for the usual 48 shots. Listed below are the results for this week:

**Hunter PCP**

47/48 – Anthony Turchetta / Steyr / Hunter class

44/48 – Wayne Mauler / Thomas / Hunter class

41/48 – Jesse Avery / BRK Ghost / Hunter class

39/48 – Tom Jalos / Daystate Revere / Hunter class

34/48 – Bill Cole / Daystate Revere / Hunter class

33/48 – Joe Pruzinsky / Daystate Revere / Hunter class

19/48 – Loren Braud / BSA – Ultra CLX / Hunter class

As usual, everyone did a great job of getting there to set up and tear down in record time. We were finished with everything and moving at 10:30! It was definitely a group effort.

Respectfully submitted,

Wayne Mauler

VP, Airgunners of Arizona, Inc.
